Executive Board of the United Nations Human Settlements Programme

Distr.: General 14 March 2022

English only

Executive Board of the United Nations Human Settlements Programme First session of 2022 29–31 March 2022 Item 6 of the provisional agenda**

Status of and discussion on the draft annual work programme of the United Nations Human Settlements Programme and draft budget of the United Nations Habitat and Human Settlements Foundation for 2023

Draft work programme and budget for 2023***

Report of the Executive Director

The present document was discussed by the ad hoc working group on programmatic, budgetary and administrative matters of the Executive Board during its meetings held on 11 March and 17 March 2022, but there was no agreed conclusion by the working group. Accordingly, this version does not represent the conclusions of the discussions held by the ad hoc working group on that day or any recommendations by the working group. The bracketed text within this document signifies that there is no agreement on the bracketed words or paragraphs. The ad hoc working group agreed to meet again to discuss the document further. Any further changes or recommendations subsequent to that meeting will be reflected in the report of the Chair of the ad hoc working group in the form of a conference room paper to be made available to the Executive Board at its first session of 2022.

^{*} Reissued for technical reasons on 25 March 2022.

^{**} HSP/EB.2022/1.

^{***} The present document is being issued without formal editing.

Foreword

Over the course of 2023, UN-Habitat will support Member States in providing adequate public goods, basic services and housing provisions, advocate for local fiscal capacity and inclusive multi-level governance, as well as stress the importance of planning and urban design, and the need to build more ecologically sustainable neighbourhoods. As set out in the Secretary-General's *Our Common Agenda*, UN-Habitat will promote adequate housing as a key element of social protection and advocate for systematic engagement with subnational authorities. The mid-term review of the Strategic Plan 2020-2025 demonstrated that it remains a good framework to guide UN-Habitat's normative and operational work. while enabling adaptation to evolving conditions. In line with the Secretary-General's policy brief on COVID-19 in an urban world (July 2020) and building on the findings of the 2021 UN-Habitat report, *Cities and Pandemics: Towards a More Just, Green and Healthy Future,* UN-Habitat will strengthen its focus on addressing systemic inequalities and explore opportunities to anchor pandemic recovery in social justice and climate action, as set out in the Secretary-General's policy brief on COVID-19 in an urban world (July 2020).

(Signed) Maimunah **Mohd Sharif** Executive Director, United Nations Human Settlements Programme

Proposed programme plan for 2023 and programme performance for 2021

I. Overall orientation

A. Mandates and background

- 1. The United Nations Human Settlements Programme (UN-Habitat) is responsible for sustainable urbanization and human settlements in the United Nations system. It supports Member States in the development of sustainable cities and human settlements through its normative and operational work at the global, regional, national and local levels. UN-Habitat also leads and coordinates the monitoring of and reporting on global progress in the implementation of the New Urban Agenda and Sustainable Development Goal (SDG) 11. The mandate derives from priorities established by General Assembly resolutions and decisions, including resolution 3327 (XXIX), by which the Assembly established the United Nations Habitat and Human Settlements Foundation, and resolution 32/162, by which the Assembly established the United Nations Centre for Human Settlements (Habitat). The Assembly, through its resolution 56/206, transformed it to the United Nations Human Settlements Programme (UN-Habitat), effective 1 January 2002. The Assembly, through its resolution 73/239, established a new governance structure for the Programme, consisting of the universal UN-Habitat Assembly, the 36-member Executive Board and the Committee of Permanent Representatives.
- 2. The Programme's support is aimed at developing the capacity at all levels of government and other key stakeholders to formulate and implement policies, plans and concrete activities for sustainable urban development. Such support is also provided through the implementation of projects under the regular programme of technical cooperation and the United Nations Development Account.

B. Strategy and external factors for 2023

- 3. Globally, 56 per cent of the population lives in cities. This share is expected to rise to 70 per cent by 2050, continuing to make urbanization one of the most significant trends of the twenty-first century. Regional and sociopolitical disparities continue to influence who benefits from urbanization. However, some 90 per cent of urban growth is taking place in less developed regions, where it is largely unplanned and capacities and resources are most constrained, while in other parts of the world many cities are experiencing negative growth and shrinking populations. Unplanned urban growth fuels the expansion of informal settlements and slums, resulting in an increase in urban poverty, inequality and lack of adequate and affordable housing. Globally, more than 1.6 billion people live in inadequate housing and more than 1 billion live in slums and informal settlements. Of significance to the programme of work are the estimated 281 million international migrants in 2020, most of whom live in urban areas, often under difficult conditions.
- High levels of inequality and exclusion are persistent trends in urban areas; income inequality has increased in urban areas for more than two-thirds of the world's population since 1980. Cities are also hot spots for environmental and energy challenges, accounting for 60 to 80 per cent of global energy consumption, 70 per cent of global greenhouse gas emissions and more than 70 per cent of resource use. The urban poor, living in risk-prone and underserviced areas, suffer the worst consequences of climate change-related disasters and natural and human-made crises. The coronavirus disease (COVID-19) pandemic has exacerbated the systemic inequalities that exist across territories regions and urban areas, where the urban poor are disproportionately affected due to crowded and underserviced environments. Supporting citywide and spatially targeted approaches will contribute to improving living conditions in all settlements and reducing disadvantages in specific locations. Support will be provided to local governments to invest in social, economic, institutional and financial innovations for a sustainable socioeconomic recovery. Partnerships will catalyse support for cities in building more resilient budgets and fiscal frameworks in support of local service delivery and local economic development. As set out in its report "Cities and Pandemics", UN-Habitat will support cities in reshaping urban planning solutions that are more sustainable and integrated, supported by innovation and technology to become healthier and more resilient.
- 5. The strategy of UN-Habitat for delivering the programme plan in 2023 continues to be driven by the strategic plan for the period 2020 2023. The mid-term review of the plan (HSP/OECPR.2021/2) concluded that it remains a solid framework for recovery and road map for achieving the SDGs. The new organizational structure, put in place in early 2020, has allowed for

more coherence across UN-Habitat's normative and operational work and more integrated programming, delivering results against more outcomes across the subprogrammes, -as detailed in UN-Habitat's project portfolio review (HSP/EB.2021/19/Add.1).

- 6. In addition, UN-Habitat flagship programmes continue to innovate fast-track integration between the normative and operational work of UN-Habitat, scaling and accelerating the impact of the organization. In 2023, UN-Habitat will further advance the following flagship programmes:
- (a) "SDG Cities", which aims advance the overall implementation of the SDGs at the local level by supporting cities in developing reliable data, undertaking evidence-based planning and implementing transformative projects (contributing to all subprogrammes);
- (b) "RISE-UP: resilient settlements for the urban poor", which works to leverage large-scale investment to build urban adaptation and climate resilience in global hotspots of vulnerability and address issues of spatial inequality (contributing mainly to subprogrammes 1 and 3);
- (c) "Inclusive cities: enhancing the positive impacts of urban migration", which supports local and national authorities in creating inclusive and non-discriminatory urban environments for all people (contributing to mainly subprogrammes 1 and 4);
- (d) "Inclusive, vibrant neighbourhoods and communities" which supports urban regeneration of towns and cities in view of overcoming also spatial inequality (contributing mainly to subprogrammes 1 and 3);
- (e) "People-centred smart cities" which supports the digital transformation in sustainable urbanization (contributing mainly to subprogrammes, 1 and 2).
- 7. In 2023, the programme will continue to mainstream social inclusion as a process and outcome to address cross-cutting issues relating to women and girls, older persons, persons with disabilities, children and youth. UN-Habitat will continue to strengthen its programmatic approach to leaving no one behind by focusing on the spatial dimension of exclusion and the self-reinforcing mechanisms of marginalization, thereby assisting Governments in providing basic services, housing and public goods in the most deprived areas of cities. UN-Habitat's thematic areas of resilience and urban safety remain cross-cutting in guiding frameworks, tools and capacity-building materials, setting standards, proposing norms and principles, and sharing good practices on social inclusion issues. Global networks such as the Global Land Tool Network, the Global Water Operators' Partnerships Alliance, the Resilient Cities Network, the Global Network on Safer Cities, the Global Network of Urban Planning and Design Labs and the Global Network of Public Space will be systematically engaged to develop and test these tools.
- 8. To better meet the needs of Member States and to engage a wider audience, UN-Habitat will strengthen capacity-building initiatives, digitization of tools and virtual e-learning programmes. The UN-Habitat capacity-building strategy for the implementation of the SDGs and the New Urban Agenda, adopted by its Executive Board in 2020, provides a clear framework to facilitate greater coordination, coherence and monitoring of results and to improve the delivery of capacity-building services to Member States and local governments, for greater impact and resource efficiency.
- 9. UN-Habitat will continue to build on its experience of implementing large-scale programmes and projects at the local, national and regional levels to guide technical cooperation work and ensure that it has a demonstrable impact on the lives of beneficiaries. Over the years, UN-Habitat has developed a wide range of diverse projects, focused in large part on integrated programming for sustainable urbanization, as well as activities ranging from crisis response to post-disaster and post-conflict reconstruction and rehabilitation.
- 10. In its catalytic role as a knowledge hub and partner convenor, UN-Habitat will carry out advocacy, communication and outreach activities across the four subprogramme themes and mobilize public and political support. It will continue to leverage advocacy and knowledge platforms, including its own website, the Urban Agenda Platform and key global meetings such as World Cities Day and World Habitat Day, regional ministerial conferences and the 2023 UN-Habitat Assembly.
- 11. As a focal point for sustainable urbanization and human settlements, UN-Habitat will continue to monitor and report on global trends and provide evidence for policymaking. UN-Habitat will further develop the Urban Agenda Platform, the global urban monitoring framework, an agreed operational definition of urban areas, and specialized tools for spatial analysis. Progress will continue to be made in 2023 in the deployment of technologies for data collection and analysis, visualization and management of information. UN-Habitat will also continue to support Member States and other stakeholders to report on the implementation of the New Urban Agenda, including as part of the reporting on the SDGs (Voluntary National and Local Reviews) and towards other global agendas.

- 12. For 2023, the UN-Habitat planned deliverables will support Member States' ongoing management of and recovery from the COVID-19 pandemic. Such planned deliverables and activities include: (a) assisting Governments in supporting increased access to water and sanitation and adequate housing, (b) advocating for the prevention of evictions, (c) measuring and reducing spatial vulnerability, and (d) preparing urban planning strategies and local resilience programmes. UN-Habitat will also deploy advisory services, innovative solutions, and knowledge packages to support Member States towards sustainable socioeconomic recovery, while also addressing climate change, guided by the Secretary-General's Policy Brief on COVID-19 in an Urban World.
- 13. Reflecting the importance of continuous improvement and responding to the needs of Member States, UN-Habitat has mainstreamed lessons learned and best practices related to the adjustments to and adaptation of its programme owing to the COVID-19 pandemic. This includes the continuation of virtual and hybrid meeting modalities where possible for technical support and for expert group meetings, enabling broader participation, and development of online training to complement existing tools of UN-Habitat with online digital learning companions.
- 14. With regard to cooperation with other entities at the global, regional, national and local levels, UN-Habitat will continue its close cooperation with international and regional organizations and other regional actors, such as the Organisation for Economic Co-operation and Development (OECD) (on national urban policies), the World Bank and the European Union (on urban recovery frameworks) as well as regional development banks. UN-Habitat will maintain its focus on partnerships with local authorities and their associations and city networks to support municipal efforts in the localization of the SDGs.
- 15. With regard to inter-agency coordination and liaison, UN-Habitat will continue to collaborate with local and regional governments and their associations and city networks, the Department of Economic and Social Affairs, the United Nations regional economic and social commissions, and partnerships with grass-roots organizations, foundations, international financial institutions, the private sector and academia. UN-Habitat will strengthen its strategic partnerships with other United Nations agencies, building on the UN system-wide strategy on sustainable urban development and agency-specific collaborative frameworks.
- 16. To pursue stronger integration of environmental sustainability into urban development, UN-Habitat will continue to strengthen its collaboration with the United Nations Environment Programme (UNEP). UN-Habitat will collaborate with the Office of the United Nations High Commissioner for Refugees (OHCHR), UNDP, IOM, the United Nations Office for Disaster Risk Reduction, the World Food Programme (WFP), the Mayors Migration Council and the Resilient Cities Network to integrate sustainable urban development into resilience and humanitarian response and urban recovery. UN-Habitat will collaborate with the World Health Organization (WHO) and the United Nations Children's Fund (UNICEF) on the monitoring of water and sanitation and the integration of health consideration into its planning work.
- 17. It will also collaborate with the Resident Coordinator system to improve the integration of urban issues and territorial approaches through the common country assessments and the formulation of the United Nations Sustainable Development Cooperation Framework.
- 18. With regard to external factors, the overall plan for 2023 is based on the following planning assumptions:
- (a) Adequate unearmarked extrabudgetary resources are available to implement the planned work and produce the deliverables;
- (b) Countries remain committed to the New Urban Agenda and the 2030 Agenda for Sustainable Development;
- (c) Ongoing requests are received from national and local governments for policy advice and technical assistance from UN-Habitat in the development and implementation of their urban policies, plans and strategies;
- (d) Urban indicators, data and information are used to formulate policies, with adequate mechanisms available for impact monitoring and performance assessments;
- (e) Countries in which UN-Habitat delivers large programmes will maintain political, economic and social conditions that allow for the implementation of programmes and projects.
- 19. Where feasible, the programme plan for 2023 continues to incorporate novel approaches to implement mandates that were put in place in response to the changed operational conditions associated with the COVID-19 pandemic. At the same time, the programme plan for 2023 assumes

that those operational conditions have improved and allow for mandate implementation through formerly established approaches. Any modifications to planned deliverables would be in pursuance of the objectives, strategies and mandates and would be reported as part of the programme performance information.

- 20. UN-Habitat integrates a gender perspective in its operational activities, deliverables and results, as appropriate, to ensure women's safety and inclusion in cities by utilizing its strategic results framework and Gender Policy and Action Plan, which are aligned with the 2020-2023 strategic plan. Furthermore, the Advisory Group on Gender Issues (AGGi) advises the Executive Director on how to best promote gender equality and women's empowerment in sustainable urban development through its flagship programmes. UN-Habitat will continue to support Member States with policy, legislation, planning and financing instruments to implement integrated, and inclusive land and housing policies that incorporate a gender-perspective, that improve tenure security for all, and address the intersecting areas of SDGs 5 and 11.
- 21. In line with the United Nations Disability Inclusion Strategy, UN-Habitat will continue to work with its partners, including the World Blind Union and World Enabled, to integrate disability inclusion. UN-Habitat will create a comprehensive accessibility assessment and action plan that will ensure disability inclusion is mainstreamed throughout the Organization's work, highlight good practice, and identify key areas that may require staff knowledge and capacity development, technical resources, and assistance. The action plan will strengthen the environmental and social safeguards framework that is applied to all projects, and disability inclusion will be incorporated as an integral part of each project submitted for approval.

C. Programme performance in 2021

D. Impact of COVID-19

22. The continuation of the pandemic into 2021 impacted the implementation of mandates, in particular cities asked to delay technical support on the SDGs under all subprogrammes and city resilience plans (subprogramme 4), as the focus remained on immediate recovery from COVID-19. Priority was also given to raise awareness on the New Urban Agenda and the development of the related online courses available in all UN languages, working closely with the Regional Economic Commission for West Asia for Arabic, in order to scale the outreach and awareness around the transformative potential of sustainable urbanization, which in return, could facilitate recovery from COVID-19 and help to accelerate progress again towards the SDGs.

E. Legislative mandates

23. The list below provides all mandates entrusted to the programme.

1. General Assembly resolutions

3327 (XXIX)	Establishment of the United Nations Habitat and Human Settlements Foundation
34/114	Global report on human settlements and periodic reports on international cooperation and assistance on human settlements
42/146	Realization of the right to adequate housing
53/242	Report of the Secretary-General on environment and human settlements
55/2	United Nations Millennium Declaration
S-25/2	Declaration on Cities and Other Human Settlements in the New Millennium
56/206	Strengthening the mandate and status of the Commission on Human Settlements and the status, role and functions of the United Nations Centre for Human Settlements (Habitat)
64/292	The human right to water and sanitation
67/291	Sanitation for All
70/1	Transforming our world: the 2030 Agenda for Sustainable Development
71/256	New Urban Agenda
72/146	Policies and programmes involving youth
72/234	Women in development
73/726	Report on the work of the Open-ended Working Group established by the Chair of the Committee of Permanent Representatives to the United Nations Human Settlements Programme (UN-Habitat), pursuant to General Assembly resolution 72/226

74/237	Eradicating rural poverty to implement the 2030 Agenda for Sustainable Development
75/212	United Nations Conference on the Midterm Comprehensive Review of the Implementation of the Objectives of the International Decade for Action, "Water for Sustainable Development", 2018–2028
75/221	Ensuring access to affordable, reliable, sustainable and modern energy for all
75/224	Implementation of the outcomes of the United Nations Conferences on Human Settlements and on Housing and Sustainable Urban Development and strengthening of the United Nations Human Settlements Programme (UN-Habitat)

2. UN-Habitat Assembly resolutions and decisions

1/1	United Nations Human Settlements Programme strategic plan for the period 2020–2023
1/2	United Nations System-Wide Guidelines on Safer Cities and Human Settlements
1/3	Enhancing capacity-building for the implementation of the New Urban Agenda and the urban dimension of the 2030 Agenda for Sustainable Development
1/4	Achieving gender equality through the work of the United Nations Human Settlements Programme to support inclusive, safe, resilient and sustainable cities and human settlements
Decision 1/3	Arrangements for the transition towards the new governance structure of the United Nation Human Settlements Programme

3. Executive Board decisions

review process

2019/1	Implementation of the strategic plan for the period 2014–2019 and the strategic plan for the period 2020–2023, and approval of the work programme and budget for 2020
2019/2	Financial, budgetary and administrative matters of the United Nations Human Settlements Programme
2019/3	Implementation of normative and operational activities of the United Nations Human Settlements Programme, including the resolutions and decisions of the United Nations Human Settlements Assembly
2020/3	Implementation of the strategic plan for the period 2014–2019, the strategic plan for the period 2020–2023, approval of the draft work programme and draft budget for 2021, implementation by the United Nations Human Settlements Programme of the reform of the development system and management of the United Nations, and alignment of the planning cycles of the Programme with the quadrennial comprehensive policy review process
2020/4	Financial, budgetary and administrative matters of the United Nations Human Settlements Programme
2020/5	Implementation of normative and operational activities of the United Nations Human Settlements Programme, including resolutions and decisions of the United Nations Habitat Assembly, and reporting on the programmatic activities of the Programme in 2020 and the implementation of subprogrammes, flagship programmes and technical cooperation activities
2021/1	Status of the draft work programme and the draft budget for 2022; implementation by the United Nations Human Settlements Programme of the reform of the development system and management of the United Nations and alignment of the UN-Habitat planning cycles with the quadrennial comprehensive policy review process
2021/2	Financial, budgetary and administrative matters of the United Nations Human Settlements Programme, including improvement of its internal management, policies and procedures and its actions to strengthen protection against sexual and any other type of exploitation and abuse and sexual harassment in the workplace
2021/3	Implementation of the normative and operational activities of the United Nations Human Settlements Programme, including the resolutions and decisions of the United Nations Habitat Assembly and reporting on the programmatic activities of UN-Habitat in 2020, as well as the subprogrammes, flagship programmes and technical cooperation activities, and update on the UN-Habitat response to the coronavirus pandemic
2021/6	Work programme and budget, implementation of the strategic plan for the period 2020–2023, and

alignment of the planning cycles of the Programme with the quadrennial comprehensive policy

2021/7 Implementation of the normative and operational activities of the United Nations Human Settlements Programme, reporting on its programmatic activities in 2021, implementation of its subprogrammes, flagship programmes and technical cooperation activities, and the high-level meeting of the General Assembly to assess progress in the implementation of the New Urban Agenda

4. Committee of Permanent Representatives recommendations

- 1 Implementation of the resolutions adopted by the United Nations Habitat Assembly at its first session, in May 2019
- 1 Implementation of resolution 1/1 on the United Nations Human Settlements
- Quadrennial report of the Secretary-General on the implementation of the New Urban Agenda, the high-level meeting of the General Assembly to assess progress in the implementation of the New Urban Agenda, and the eleventh session of the World Urban Forum

5. Governing Council resolutions

19/4	Cooperation between the United Nations Human Settlements Programme and the United Nations Environment Programme
19/11	Strengthening the United Nations Habitat and Human Settlements Foundation
20/6	Best practices, good policies and enabling legislation in support of sustainable urbanization and the attainment of internationally agreed development goals
20/16	Enhancing the involvement of civil society in local governance
21/3	Guidelines on decentralization and strengthening of local authorities
21/7	Sustainable public-private partnership incentives for attracting large-scale private-sector investment in low-income housing
21/8	Africa fund/financing mechanism on slum prevention and upgrading
21/9	Women's land and property rights and access to finance
21/10	Strengthening the Habitat and Human Settlements Foundation: experimental financial mechanisms for pro-poor housing and infrastructure
22/9	South-South cooperation in human settlements
23/3	Support for pro-poor housing
23/4	Sustainable urban development through access to quality urban public spaces
23/8	Third United Nations conference on housing and sustainable urban development
23/10	Future activities by the United Nations Human Settlements Programme in urban economy and financial mechanisms for urban upgrading, housing and basic services for the urban poor
23/17	Sustainable urban development through expanding equitable access to land, housing, basic services and infrastructure
24/2	Strengthening the work of the United Nations Human Settlements Programme on urban basic services
24/5	Pursuing sustainable development through national urban policies
24/7	Making slums history: a worldwide challenge
24/9	Inclusive national and local housing strategies to achieve the Global Housing Strategy paradigm shift
24/11	Promoting sustainable urban development by creating improved economic opportunities for all, with special reference to youth and gender
24/13	Country activities by the United Nations Human Settlements Programme
25/1	Contribution of the United Nations Human Settlements Programme to the post-2015 development agenda in order to promote sustainable urban development and human settlements
25/2	Strengthening national ownership and operational capacity
25/6	International guidelines on urban and territorial planning
25/7	United Nations Human Settlements Programme governance reform
26/4	Promoting safety in cities and human settlements
26/5	Regional technical support on sustainable housing and urban development by regional consultative structures
26/6	World Urban Forum
26/9	Human settlements development in the Occupied Palestinian Territory

6. Economic and Social Council resolutions

2003/62	Coordinated implementation of the Habitat Agenda
2017/24	Human settlements
2020/7	Affordable housing and social protection systems for all to address homelessness
2021/7	Mainstreaming a gender perspective into all policies and programmes in the United Nations system

Subprogramme 1

Reduced spatial inequality and poverty in communities across the urban-rural continuum

General Assembly resolution

69/213	Role of transport and transit corridors in ensuring international cooperation for sustainable development
71/327	The United Nations in global economic governance
74/141	The human rights to safe drinking water and sanitation
74/299	Improving global road safety
76/133	Inclusive policies and programmes to address homelessness, including in the aftermath
	of the coronavirus disease 2019 (COVID-19)"

Subprogramme 2

Enhanced shared prosperity of cities and regions

General Assembly resolution

71/327	The United Nations in global economic governance
75/176	GA Third Committee Resolution on the Right to Privacy in the Digital Age

Governing Council resolutions

24/3	Inclusive and sustainable urban planning and elaboration of international guidelines on urban and
	territorial planning

UN-Habitat Assembly resolution

1/5 Enhancing urban-rural linkages for sustainable urbanization and human settlements

Subprogramme 3

Strengthened climate action and improved urban environment

General Assembly resolutions

63/217	Natural disasters and vulnerability
67/263	Reliable and stable transit of energy and its role in ensuring sustainable development and international cooperation
69/225	Promotion of new and renewable sources of energy
73/228	Follow-up to and implementation of the SIDS Accelerated Modalities of Action (SAMOA) Pathway and the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States
74/219	Protection of global climate for present and future generations of humankind
75/216	Disaster risk reduction
75/218	Implementation of the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, particularly in Africa
75/219	Implementation of the Convention on Biological Diversity and its contribution to sustainable development

Governing Council resolutions

22/3	Cities and climate change	
------	---------------------------	--

Subprogramme 4

Effective urban crisis prevention and response

General Assembly resolutions

69/280	Strengthening emergency relief, rehabilitation and reconstruction in response to the devastating effects of the earthquake in Nepal
69/283	Sendai Framework for Disaster Risk Reduction 2015–2030
73/139; 74/118	Strengthening of the coordination of emergency humanitarian assistance of the United Nations
73/150	Assistance to refugees, returnees and displaced persons in Africa
73/230	Effective global response to address the impacts of the El Niño phenomenon
74/115	International cooperation on humanitarian assistance in the field of natural disasters, from relief to development
74/160	Protection of and assistance to internally displaced persons

20/17	Post-conflict, natural and human-made disaster assessment and reconstruction
23/18	Natural disaster risk reduction, preparedness, prevention and mitigation as a contribution to sustainable urban development
26/2	Enhancing the role of UN-Habitat in urban crisis response

F. **Deliverables**

24. Table 1 lists all cross-cutting deliverables of the programme.,

Table 1 Cross-cutting deliverables for the period 2021-2023, by category and subcategory

D. Communication deliverables

Outreach programmes, special events and information materials: flyers and factsheets about High-Level Meeting on the Implementation of the New Urban Agenda, materials and flyers about the New Urban Agenda

External and media relations: interviews or commentaries about UN-Habitat flagship reports, World Cities Report; articles or blogs about revitalizing the New Urban Agenda ahead of the High-Level Meeting on the Implementation of the New Urban Agenda.

Digital platforms and multimedia content: Urban Agenda Platform https://www.urbanagendaplatform.org/.

G. Evaluation activities

- 25. The following evaluations completed in 2021 have guided the proposed programme plan for 2023:
 - (a) Evaluations conducted by the OIOS and JIU:
 - (i) Strengthening the role of evaluation and the application of evaluation findings on programme design, delivery and policy directives (OIOS)
 - (ii) Evaluation of the prevention, response and victim support efforts against sexual exploitation and abuse by United Nations Secretariat staff and related personnel (OIOS)
 - (iii) Evaluation synthesis of strategic planning (OIOS)
 - (iv) Cybersecurity in the United Nations Systems organizations (JIU)
 - (v) Review of policies and platforms in support of learning: towards more coherence, coordination and convergence (JIU)
 - (vi) Review of United Nations system support for landlocked developing countries to implement the Vienna Programme of Action
 - (b) Evaluations conducted by UN-Habitat:
 - (i) Evaluation of impact and outcomes of the tenth session of the World Urban Forum (WUF10)
 - (ii) Evaluation of UN-Habitat's Policy and Plan for Gender Equality and Empowerment of Women in Urban Development and Human Settlements, 2014-2019
 - (iii) End-Term Programme Evaluation of the Kabul Strengthening Municipal Nahias Programme (KSMNP) 2016-2020
 - (iv) Terminal evaluation of the Programme Support to Land Governance for Peace, Stability and Reconstruction (PSLGPSR)
 - (v) Evaluation of Programme Support to the Development of the National Urban Policy and the New Urban Agenda in Bolivia
 - (vi) Evaluation of RE-INTEG MOGADISHU: Innovative durable solutions for IDPs and returnees in Mogadishu
 - (vii) Final Evaluation of Project "Support for Improving Living Environment and Prevention Capacity in Cambodia.
 - (viii) Evaluation of UN Habitat Nation Urban Programme
 - (ix) Terminal evaluation Programme support to land governance for peace, stability and reconstruction in Eastern Democratic Republic of the Congo Post-Conflict Era 2014-2019
- 26. The results and lessons of the evaluations referenced above have been taken into account for the proposed programme plan for 2023. For example, based on recommendations from evaluation of the WUF10, UN-Habitat will strengthen results-based management of the next WUF programme starting in 2023, with improved indicators and appropriate baselines and targets to measure impact and outcomes. Lessons from evaluation of its gender equality policy and plan have been used to improve management of the Gender Advisory Group. UN-Habitat presented the challenge of inadequate capacity terms of staffing and financial resources of , highlighted in the OIOS report on strengthening the role of evaluation, to its Executive Board with the intent of mobilizing more XB resources to address the challenge of capacity that will be strengthened by 2023 Based on recommendations stemming from evaluation of the programme in the Democratic Republic of the Congo, UN-Habitat will improve partnerships and coordination throughout its programmes and projects in 2023.
- 27. The following evaluations are planned for 2023:
 - (a) Evaluations to be conducted by OIOS: Subprogramme 2 of UN-Habitat
 - (b) Joint Inspection Unit

- (c) Evaluations to be conducted by UN-Habitat:
- (d) 10 programmes/ projects closing that will be closing in 2023;
- (e) Evaluation of two Country Programmes;
- (f) Two thematic evaluations.

Programme of work

II. Subprogramme 1

A. Reduced spatial inequality and poverty in communities across the urbanrural continuum

B. Objective

28. The objective, to which this subprogramme contributes, is to reduce inequality between and within communities and to reduce poverty in communities across the urban-rural continuum through increased and equal access to basic services, sustainable mobility, accessible and safe public space, increased and secure access to land, adequate and affordable housing and effective human settlements growth and regeneration.

C. Strategy

- 29. To contribute to the objective, the subprogramme will:
- (a) develop and disseminate toolkits, standards, and technical guidelines to Member States, and engage partner cities and local governments in policy dialogues, peer-to-peer support, the sharing of best practices, training sessions and other capacity-building initiatives in the areas of water, sanitation, and energy, in a digitizing world;
- (b) mobilize national and local governments to improve their waste management practices and resource efficiency through rethinking, reducing, reusing and recycling materials and waste before and after consumption;
- (c) provide Member States with policy, legislation, planning and financing instruments to implement integrated and inclusive and gender-sensitive land and housing policies;
- (d) advocate for adequate, affordable housing and the prevention of unlawful forced evictions, as well as the implementation of sustainable building codes, regulations and sustainability certification tools for the housing sector;
- (e) provide technical assistance to national and local governments, and cities seeking to develop specific bankable, catalytic and pilot urban interventions for urban expansion and regeneration and support partner cities in institutionalizing different approaches on urban regeneration through the development of specific plans, policies, technical guidelines and toolkits, in line with the International Guidelines on Urban and Territorial Planning and principles of sustainable urbanization;
- (f) support national and local governments on recovering from COVID-19 in cities and human settlements by disseminating toolkits, best practices and technical guidelines for addressing the structural inequalities exposed by the pandemic and scale up access to basic and social services, sustainable mobility and safe public space, particularly in urban slums and informal settlements and for people in vulnerable situations.
- (g) increase the focus on homelessness and recommend possible indicators on access to adequate, safe and affordable housing in the aftermath of COVID-19, in collaboration with UN-DESA
- 30. In doing so, the subprogramme will assist Member States to make progress towards achieving SDGs 1, 2, 5, 6, 7, 10, 11 12, 14, and 15.
- 31. The above-mentioned work is expected to result in:
 - (a) Safer, more accessible and inclusive public spaces in urban areas:
- (b) Increased accessibility to adequate and affordable housing in urban areas, and strengthened capacities of policymakers to implement sustainable land governance systems;

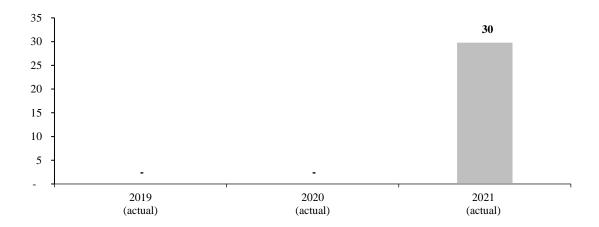

(c) Transformation and regeneration of urban areas into socially and economically inclusive neighbourhoods that offer improved quality of life to all, including improved access to basic services.

D. Programme performance in 2021

Enhanced waste management and resource efficiency in the world's cities

32. Rapid urbanization, population growth and changing lifestyles h0ave led to increased solid waste generation in the world's cities, often overburdening existing systems. Uncontrolled solid waste is a threat to public and environmental health and one of the main sources of marine litter. UN-Habitat has been working with local governments and other stakeholders on improving waste data and monitoring, strengthening knowledge, technical capacity & governance, raising awareness and increasing investments for and commitments to waste management improvement. In 2021, the subprogramme launched the Waste Wise Cities Tool, a practical guide to assess the environmental performance of municipal solid waste management and invited member cities of the *Waste Wise Cities Network* to collect baseline solid waste data. This has allowed local governments to close data gaps, enabling evidence-based decision making, action planning, and progress monitoring against SDGs. Progress towards the objective is presented in the performance measure below (see figure 1).

Figure 1
Performance measure: number of local governments collecting data on municipal solid waste management using the Waste Wise Cities Tool

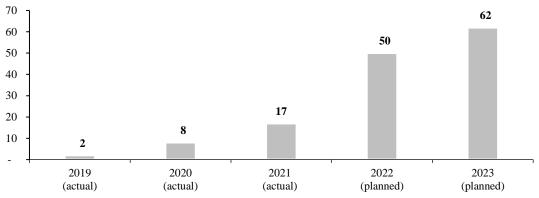

E. Planned results for 2023

1. Result 1: inclusive, vibrant neighbourhoods and communities

Programme performance in 2021

- 33. The subprogramme's work contributed to the adoption of urban regeneration policies by 17 cities, which did not meet the planned target of 32 cities, due to local governments reprioritizing their efforts to respond to the COVID-19 pandemic. This caused a delay in the roll-out of activities and the establishment of partnerships of the subprogramme.
- 34. Progress towards the objective and target for 2023 are presented in the performance measure below (see figure 2).

Figure 2
Performance measure: number of cities adopting urban regeneration policies with support from the United Nations Human Settlements Programme (cumulative)

2. Result 2: increased access to basic services, sustainable mobility and upgrading programmes to strengthen community resilience to pandemics such as COVID-19 in slums and informal settlements

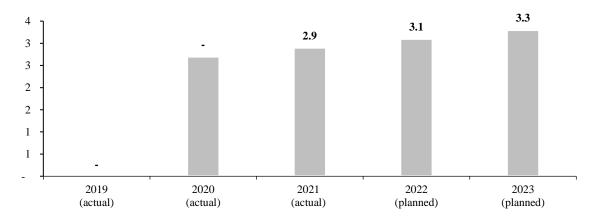

Programme performance in 2021 and target for 2023

- 35. The subprogramme's work contributed to 2.9 million people in slums and informal settlements in 45 countries receiving access to basic services which met the planned target.
- 36. Progress towards the objective and target for 2023 are presented in the performance measure below (see figure 3).

Figure 3

Performance measure: number of people in slums and informal settlements in 45 countries with access to basic services (cumulative)

(Millions)

3. Result 3: enhanced and expanded service delivery by local water and sanitation operators

F. Proposed programme plan for 2023

37. While there has been progress in extending access to water and sanitation services in recent decades, billions of people still cannot count on clean drinking-water and safe sanitation systems. Local water and sanitation service providers have a tremendous role to play in reaching the water and sanitation-related dimensions of the SDGs, yet many face enormous challenges to supply existing and fast-growing urban populations. The subprogramme, under the Global Water Operators' Partnerships Alliance (GWOPA), organised peer support exchanges between water operators, with the objective of strengthening their capacity, enhancing their performance, and enabling them to provide better local water and sanitation services to more beneficiaries.

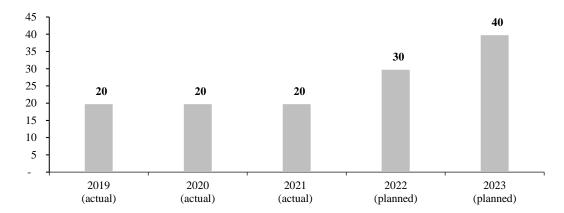

Lessons learned and planned change

38. The lesson learned for the subprogramme was the need to provide a tailored approach to support sanitation operators, distinct from the approach for water service providers, given their diverse institutional arrangements and service delivery models at the local level. In applying the lesson, the

subprogramme will work with governments, financing institutions, regional organisations, and other major Water Operators' Partnership (WOP) programmes to develop technical capacity amongst sanitation service providers on city-wide inclusive sanitation. The subprogramme will also encourage local sanitation operators to become members of the GWOPA, to enable access to the wide range of knowledge and technical support available.

39. Expected progress towards the objective is presented in the performance measure below (see figure 4).

Figure 4
Performance measure: number of local sanitation operators providing more inclusive sanitation services (cumulative)

G. Deliverables

40. Table 2 lists all deliverables for the subprogramme.

Table 2
Subprogramme 1: deliverables for the period 2021–2023, by category and subcategory

26.	Series of guides and tools to improve land management and tenure security	2	3	1	1
27.	Guidelines and handbooks on slum upgrading solutions	3	2	2	2
28.	Neighbourhood planning guidelines on participation and inclusive regeneration	1	1	_	-

B. Substantive deliverables

Consultation, advice and advocacy: technical advice to requesting Member States on implementation, monitoring and implementation of the NUA and SDGs; advisory services on the right to housing and tenure security for all, urban law reform and effective urban regeneration and growth management, urban land administration and management to different stakeholders (national and local governments, civil society, private sector, academia, and other United Nations entities)

Databases and substantive digital materials: database on UrbanLex on urban law and digital materials on global commitments related to land, housing, urban basic services, mobility, energy, water and sanitation, solid waste management, air quality and climate change mitigation and adaptation, cultural heritage.

C. Communication deliverables

Outreach programmes, special events and information materials: networks including Global Network of Public Space; Best Practices Awards; events with approximately 500 participants, brochures, leaflets and spotlights, on slum upgrading, urban regeneration, public space and housing, urban land governance and management

External and media relations: media kits, press releases, web stories and social media content on inclusive cities.

Digital platforms and multimedia content: video documentaries, infographics, presentations and webinars and two open digital platforms on urban safety, heritage, regeneration, urban growth.

III. Subprogramme 2

A. Enhanced shared prosperity of cities and regions

B. Objective

41. The objective, to which this subprogramme contributes, is to enhance the shared prosperity of cities and regions through improved spatial connectivity and productivity, increased and equitably distributed locally generated revenue and expanded deployment of frontier technologies and innovation.

C. Strategy

- 42. To contribute to the objective, the subprogramme will:
- (a) support Member States and other partners in enhancing the contribution made by urbanization to productivity and inclusive economic development through the formulation of national urban policies and related legal, financial and implementation frameworks integrated into whole-of-government planning, policy and financing frameworks; knowledge transfer; capacity-building; and the development of tools on urban and rural territorial planning and design that supports balanced economic development across subnational territories
- (b) provide technical assistance, capacity-building and advisory services to cities with regard to developing participatory, accountable budgeting approaches and optimizing local revenue systems through data collection, digitization and the development of municipal databases, and work to leverage private sources of capital for sustainable urban development.
- (c) strengthen the capacity of national and local governments to effectively procure, test and implement frontier technologies and innovations such as sensor networks, machine-to-machine communication, artificial intelligence, virtual and augmented reality, geographic information systems, remote sensing and big data processing and visualization, while supporting their digital transition.
- (d) provide a territorial framework for socioeconomic recovery from COVID-19, climate action and safeguarding the environment and biodiversity with a focus on the recovery of locally generated revenue, including land-based financing.
- 43. In doing so, the subprogramme will assist Member States in making progress towards SDGs 1, 8, 9, 10 and 11.
- 44. The above-mentioned work is expected to result in:
- (a) balanced territorial development and better-connected human settlements, while contributing to improved social inclusion poverty reduction and climate action;
- (b) the enactment by local authorities of institutional and legal reforms conducive to the generation of additional financial resources, including through public-private partnerships and land-based revenue and financing tools;
- (c) strengthened capacity of cities to address inequalities and bridge social, spatial and digital divides.
 - (d) Local economic recovery measures from COVID-19

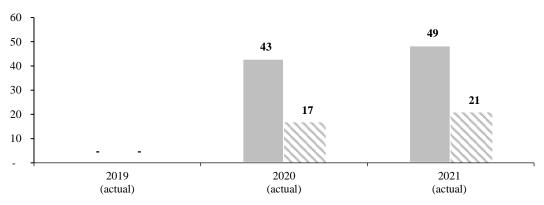

D. Programme performance in 2021

Increasing municipal revenues for sustainable development

- 45. In 2021, the subprogramme continued to support cities to generate local revenue for sustainable development. In the self-declared autonomous region of Somaliland, the subprogramme as part of the United Nations Joint Programme on Local Governance, supported local government counterparts on property registration. The work involved demarcating sub-zone boundaries, updating district administrative maps, classifying and naming roads, installing road signs, and implementing mobile e-payment systems. Across eight cities in the region, revenue increased by USD 5.4 million between 2020 and 2021, including a USD 2 million increase in Hargeisa. The increase in revenue enabled improved delivery of basic urban services through an increased budgetary allocation to infrastructure development. Following this success, the subprogramme has initiated similar technical support in Garowe municipality in Puntland and Baidoa district in Southwest State.
- 46. Progress towards the objective is presented in the performance measure below (see figure 5).

Figure 5
Performance measure: revenue generated in cities in the self-declared autonomous region of Somaliland and in Somali cities (cumulative)

(In millions of USD)

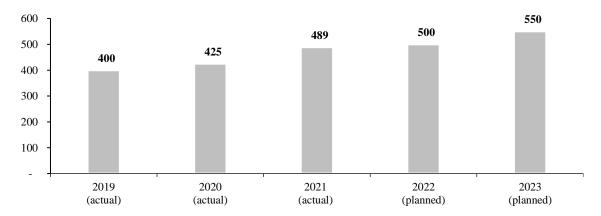

Municipal revenues Allocation for development activities

E. Planned results for 2023

1. Result 1: strengthened capacities of cities to accelerate the implementation of the Sustainable Development Goals by linking evidence-based policies to investments

- 47. The subprogramme's work contributed to 489 cities using the Sustainable Development Goal Cities initiative urban indicator and monitoring platform, which exceeded the planned target of 450 cities.
- 48. Progress towards the objective and target for 2023 are presented in the performance measure below (see figure 6).

Figure 6
Performance measure: number of cities using the Sustainable Development Goal Cities initiative urban indicator and monitoring platform (cumulative)

2. Result 2: a people-centred approach to urban innovation, digital technologies, smart cities and urbanization processes adopted by cities

Programme performance in 2021 and target for 2023

- 49. The subprogramme's work contributed to 5 local governments adopting people-centred digital transformation and smart city strategies that address the digital divide which did not meet the planned target of 10 local governments. The target was not met due to COVID-19 travel restrictions which caused delays in implementation.
- 50. The subprogramme's work also contributed to 10 countries implementing urban innovation challenges which met the planned target.
- 51. Progress towards the objective and target for 2023 are presented in the performance measure below (see Table 3).

Table 3 **Performance measure**

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
Member States at the UN-Habitat Assembly note the potential of frontier technologies and innovation for sustainable urban development	10 cities benefit from a flagship programme on people-centred smart cities	5 local governments adopt people-centred digital transformation and smart city strategies that address digital divide. 10 countries implementing urban innovation challenges	20 local authorities implement digital transformation and smart city strategies and benefit from innovations addressing the digital divide	25 local authorities implement digital transformation and smart city strategies and benefit from innovations addressing the digital divide

3. Result 3: regional spatial development plans for improved prosperity and balanced socioeconomic development

F. Proposed programme plan for 2023

52. The subprogramme recognises that urbanization in most developing countries drives enormous changes in the spatial distribution of people, resource, and consumption of land. However, in many countries, particularly in the developing world, these aspects are inadequately harnessed for sustainable development and often urbanization challenges outpace development gains. In order to harness urbanization and mitigate its negative externalities, there is need for a coordinated approach, and clear policy directions accompanied with territorial spatial planning that promote well-functioning systems of cities and improved rural-urban linkages. The subprogramme has started to support the formulation of regional spatial development plans across regions of Ethiopia.

Lessons learned and planned change

- 53. The lesson for the subprogramme was the importance of effective spatial planning for implementation of national development plans and the need to strengthen capacity in this area. In applying the lesson, the subprogramme will build capacity of planning and economic development institutions in 10 Regional States of Ethiopia and support them to formulate and implement regional spatial development plans. These plans will include land-use and regional infrastructure network schemes that aim to generate improved prosperity and balanced socioeconomic development, in line with national development goals.
- 54. Expected progress towards the objective is presented in the performance measure below (see table 4).

Table 4
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
_	_	Local economic and spatial studies commenced in 10 regions	Regional Authorities develop regional spatial development plans	Regional Authorities in Ethiopia endorse 10 regional spatial development plans

G. Deliverables

55. Table 5 lists all deliverables of the subprogramme.

Table 5
Subprogramme 2: deliverables for the period 2021–2023, by category and subcategory

10.	on frontier technologies and innovation, best practices, legal and governance frameworks and prosperity indices for sustainable urban development and implementation of the New Urban Agenda and the SDGs	10	10	3	3

B. Substantive deliverables

Consultation, advice and advocacy: advisory services to 20 Member States on national urban policy, urban-rural linkages, metropolitan development, territorial development, urban monitoring financing sustainable urban development, smart cities and private-sector focused engagement frameworks.

Databases and substantive digital materials: National Urban Policy Database, comprising 159 countries; Compendium of Urban-rural Linkages Case Studies, sample of 17 experiences from all regions of the world; Global Municipal Database, which includes 50 countries and 109 cities.

C. Communication deliverables

Outreach programmes, special events and information materials: brochures, leaflets, profiles and events on national urban policy, urban-rural linkages, metropolitan development, territorial development, urban monitoring financing sustainable urban development, smart cities and private-sector focused engagement frameworks.

External and media relations: communiqués, press statements, press conferences and other communication materials to the media or other external entities.

Digital platforms and multi-media content: content for social media.

IV. Subprogramme 3

A. Strengthened climate action and improved urban environment

B. Objective

56. The objective, to which this subprogramme contributes, is strengthened climate action and improved urban environments through reducing greenhouse gas emissions and improving air quality, improving resource efficiency and protecting ecological assets, and the effective adaptation of communities and infrastructure to climate change.

C. Strategy

- 57. To contribute to the objective, the subprogramme will:
- (a) provide technical support for the development of low-emission city development that addresses emerging climate risks, adaptation investments, and basic service provision and the integration of low-emission development and air quality strategies into urban mobility, public space and urban development strategies.
- (b) provide assistance on sustainable approaches to urban climate action to requesting Member States through knowledge transfer, capacity-building, policy advice and peer-to-peer engagement in regional networks.
- (c) broaden its engagement with Member States to scale up the urban dimension of nationally determined contributions and national adaptation plans, while strengthening the evidence base.
- (d) promote solutions to climate action for urban and peri-urban environmental protection, restoration and open public spaces, promote integrated solid waste management, and address marine plastic litter reduction through the development of tools and guidelines as well as field projects.
- (e) support the development of energy and resource-efficient standards for buildings and the integration of energy and resource efficiency principles into country-specific building and planning codes.
- (f) provide assistance in the formulation of policy and legislation, urban planning and design, multilevel governance and financing instruments through its flagship programme entitled "RISE-UP: resilient settlements for the urban poor", which focuses on mobilizing investments to address climate resilience issues affecting urban communities in vulnerable situations.
- (g) support the implementation of global adaptation initiatives, such as the National Adaptation Plan Global Support Programme, the Nationally Determined Contributions Partnership, which contributes to the implementation the Paris Agreement on climate agreement.
- (h) promote an integrated approach to socioeconomic development, climate and health resilience through provision of technical advice on technologies, processes and investment opportunities in the context of COVID-19.
- 58. In doing so, the subprogramme will assist Member States to make progress towards achieving Sustainable Development Goals 1, 6, 7, 8, 9,11, 12, 11, 13, 14 and 15.
- 59. The above-mentioned work is expected to result in:
- (a) multidimensional climate action and urban environment planning by partner cities that preserves, regenerates and restores urban biodiversity and reduces air and water pollution;
- (b) mobilization of additional financial resources for adaptation to climate change at the national and subnational levels;
 - (c) development of COVID-19 recovery plans by partner cities and Member States;
 - (d) more climate- and pandemic-resilient cities, human settlements and communities.

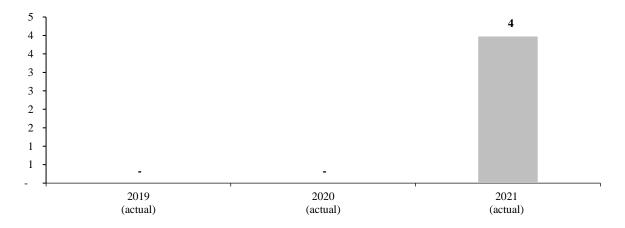

D. Programme performance in 2021

Strengthened local climate action through innovation

- 60. To achieve the goals set out in the Paris Agreement, local climate action needs to be significantly accelerated. The subprogramme contributed to the acceleration of innovation in urban climate action. With a broad range of national and local government partners and other stakeholders, 27 Urban Thinkers Campuses on climate action were held, providing a space for critical exchange between urban researchers, professionals and decision-makers
- 61. The Innovate4Cities ("I4C") 2021 Conference, held from 11 to 15 October 2021, under the theme of 'Science and innovation partnerships driving inclusive, resilient and climate neutral cities', was co-hosted by UN-Habitat and the Global Covenant of Mayors and co-sponsored by the Intergovernmental Panel on Climate Change with registered participants from 159 countries. The conference outcomes guides city-level climate action, research and innovation in support of closing the implementation gap by making such innovations available to urban practitioners. To sustain the momentum of urban climate innovation at the local level, the subprogramme held the first city innovation challenge to match the innovation needs of cities with the matched capacity of innovators to support implementation. Initially four cities from Latin America, Africa and Europe were chosen and solutions to a wide range of challenges offered by experts in the field. Progress towards the objective is presented in the performance measure below (see figure 7).

Figure 7
Performance measure: number of cities developing innovative climate change mitigation measures.

Number of cities

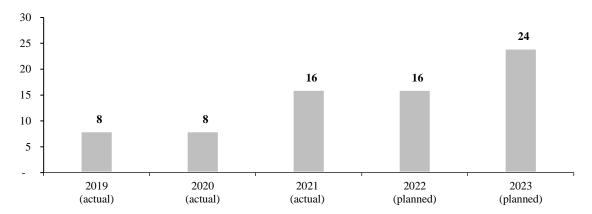

E. Planned results for 2023

1. Result 1: accelerated climate action in 16 cities and eight countries around the world Programme performance in 2021

- 62. The subprogramme's work contributed to 16 cities enacting legal frameworks for low-emission development strategies, which met the planned target.
- 63. Progress towards the objective and target for 2023 are presented in the performance measure below (see figure 8).

Figure 8

Performance measure: number of cities enacting legal frameworks for low-emission development strategies with support from the United Nations Human Settlements Programme (cumulative)

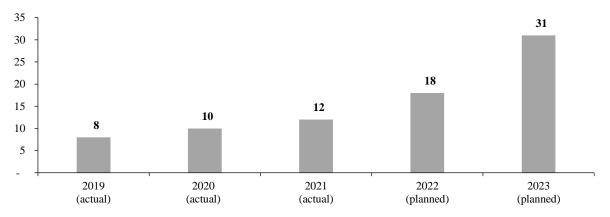

2. Result 2: participatory urban resilience action in Southern Africa

Programme performance in 2021 and target for 2023

64. The subprogramme's work contributed to 12 distinct resilience action frameworks developed in sub-Saharan Africa, which did not meet the planned target of 14 distinct resilience action frameworks. The target was not met because of implementation delays experienced by three cities due to COVID-19-related issues. Progress towards the objective and target for 2023 are presented in the performance measure below (see figure 9).

Figure 9
Performance measure: total number of distinct resilience action frameworks developed in sub-Saharan Africa (cumulative)

3. Result 3: Increased climate resilience of urban communities in Lebanon and Jordan

F. Proposed programme plan for 2023

65. The Syrian crisis has had profound humanitarian, socioeconomic, and environmental impacts on its population. Lebanon and Jordan are the largest refugee-hosting countries in the world relative to their national populations' size, and the two countries are the most water scarce in the region, a challenge which has been further aggravated by climate change. The subprogramme has developed a territorial development strategy, planning frameworks and has identified climate change vulnerabilities in selected cities. Capacity development activities have started to prepare municipalities and target communities for the implementation of the rainwater harvesting (RWH) systems, greywater treatment and reuse systems, permaculture piloting and water-use-efficient irrigation systems using treated water.

Lessons learned and planned change

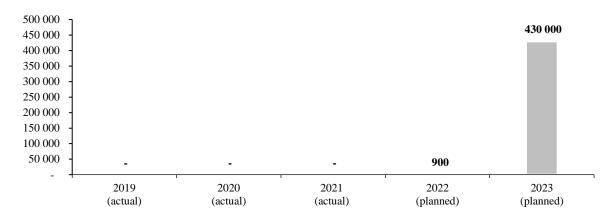

66. The lesson for the subprogramme was that a standalone approach to climate change resilience without incorporating broader environmental, social and economic dimension will not be an effective approach. In applying the lesson, the subprogramme will devise a comprehensive climate change

adaptation system integrated in the urban master plans that employs several complementary measures e.g., greening of urban spaces while harvesting rainwater and producing food including through permaculture initiatives. Another lesson for the subprogramme was that area-specific climate data is not readily available in the region and there is a need to build municipal capacities on climate data collection, analysis, and reporting. In applying the lesson, the subprogramme will build on existing partnerships with UN-ESCWA, where the generated climate data will be injected into existing regional climate change data platforms (e.g., RICCAR^[1]) as per the developed knowledge management strategy.

67. Expected progress towards the objective is presented in the performance measure below (see figure 10)

Figure 10 Performance measure: number of people who have benefited from climate change adaptation actions identified through the master planning process:

Number of beneficiaries

G. Deliverables

68. Table 6 lists all deliverables of the subprogramme.

Table 6
Subprogramme 3: deliverables for the period 2021–2023, by category and subcategory

Cat	egory	y and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
A.	Ger	neration and transfer of knowledge				
	Fiel	Field and technical cooperation projects (number of projects) On improving urban air quality, the urban environment		32	15	22
	1.	On improving urban air quality, the urban environment, climate change mitigation, and increased access to low-emission basic services, more sustainable infrastructure and buildings	4	4	2	2
	2.	Improved policies, legal instruments, plans and strategies for better urban air quality, the urban environment, climate change mitigation and low- emission basic services and sustainable infrastructure and buildings	3	3	1	1
	3.	On resilience-building and adaptation of communities and infrastructure to climate change, and disaster risk reduction	11	11	6	10
	4.	On effective adaptation of communities and infrastructure to climate change, informed by participatory processes, assessments of local vulnerabilities and innovative data collection (i.e., remote sensing) and processing	6	6	3	6
	5.	Projects on urban environmental management and restoration, biodiversity protection, circular economy and ecosystem services	4	4	1	1
	6.	On urban resource management and efficiency, including circular economy, efficient use of urban land, service provision and sustainable water and waste management, and promotion of cleaner energy and energy efficiency	4	4	2	2

Category	and subcategory	2021 planned	2021 actual	2022 planned	2023 planned
Sem	inars, workshops and training events (number of days)	100	100	38	43
7.	Seminars, workshops and training events for partners and those in vulnerable situations (e.g., in informal settlements) on climate change mitigation, air quality and low-emission basic services	35	35	10	10
8.	Seminars, workshops and training events on effective adaptation of communities and infrastructure to climate change	55	55	25	25
9.	Seminars, workshops and training events on sustainable city models and their application, sustainable infrastructure and urban planning	5	5	_	5
10.	Training on environment and climate dimensions and SDG monitoring in urban areas	5	5	3	3
Pub	lications (number of publications)	3	3	3	3
11.	On climate change mitigation and air quality	1	1	1	1
12.	On effective adaptation of communities of slums and other marginalized communities in urban neighbourhoods, and infrastructure, to climate change	1	1	1	1
13.	On improved low- emission urban services and resource efficiency (e.g., focusing on technological innovation)	1	1	1	1
Tecl	hnical materials (number of materials)	12	12	5	5
14.	On improved resource efficiency and protection of ecological assets, including sectoral materials	2	2	1	1
15.	On climate change mitigation and air quality	3	3	1	1
16.	On climate action, basic services or environment in human settlements	3	3	1	1
17.	On national, regional and local guidelines, plans, coordination mechanisms and strategies on climate action, the urban environment, ecosystems and biodiversity, bluegreen networks, ecological assets and ecosystem services	2	2	1	1
18.	On improved low-emission urban services, resource efficiency and (electric) mobility solutions and infrastructure (including monitoring)	2	2	1	1

B. Substantive deliverables

Consultation, advice and advocacy: advisory services to 16 Member States on reducing urban greenhouse gas emissions to achieve climate change mitigation and adaptation, improving air quality and low emission urban services, improving resource efficiency and protecting ecological assets.

Databases and substantive digital materials: databases on urban climate- or environment-relevant subjects, and substantive digital materials (i.e., simulations) on reduced greenhouse gas emissions and improved air quality including a database on climate initiatives in Rwanda, risk and vulnerability analysis in Lao PDR, a solutions toolbox for eMobility.

C. Communication deliverables

Outreach programmes, special events and information materials: brochures, campaign and events on reduced greenhouse gas emissions and improved air quality, improved resource efficiency and protection of ecological assets, effective adaptation of communities and infrastructure to climate change

External and media relations: articles on reduced greenhouse gas emissions and improved air quality, improved resource efficiency and protection of ecological assets and effective adaptation of communities and infrastructure to climate change.

Digital platforms and multimedia content: websites and content for social media accounts; multimedia content on reduced greenhouse gas emissions and improved air quality, improved resource efficiency and protection of ecological assets and effective adaptation of communities and infrastructure to climate change.

V. Subprogramme 4

A. Effective urban crisis prevention and response

B. Objective

69. The objective, to which this subprogramme contributes, is to enhance urban crisis prevention and response. This is done through promoting social integration and inclusive communities as well as improved living standards and the inclusion of migrants, refugees, internally displaced persons and returnees, and enhancing resilience of the built environment and infrastructure.

C. Strategy

- 70. To contribute to the objective, the subprogramme will:
- (a) engage in-country comprehensive, participatory and inclusive operational programmes to respond to crises affecting all members of the community, including those in vulnerable situations; and implement fit-for-purpose land administration towards the achievement of tenure security for all in crisis-affected areas, while supporting measures for national urban frameworks that adopt inclusive urban governance and planning approaches.
- (b) support implementation by Member States of inclusive, evidence-based, sustainable recovery approaches, such as the Urban Recovery Framework for conflict-affected countries to support urban resilience recovery, applying area-based approach and community inclusive participatory and bottom-up processes, while ensuring age, gender, and diversity representation.
- (c) build capacity of national, regional and local actors to increase social cohesion between communities, reducing discrimination and xenophobia with full respect to human rights in urban crisis situations;
- (d) prioritize improved living standards and the inclusion of migrants, refugees, internally displaced persons and returnees by providing urban crisis-response expertise and supporting integrated urban development strategies that address the needs of both host communities and the displaced, in support also of the Secretary-General's Action Agenda on IDPs;
- (e) enhance the Programme's normative guidance and operational support in urban and rural displacement contexts, within the framework of the flagship programme "Inclusive cities: enhancing the positive impacts of urban migration on evidence-based impact of migration and displacement on urbanization.
- (f) develop evidence-based local disaster risk reduction and resilience strategies in line with the Sendai Framework for Disaster Risk Reduction and implement disaster risk reduction and resilience strategies;
- (g) develop and improve urban profiling and urban-specific recovery frameworks, tools and approaches, supporting local implementation and mobilizing urban stakeholder networks of and complementing work led by the World Bank, the European Union and UNDP at the national level.
- (h) work with cities and informal settlements within cities and rural areas, through normative and operational activities, on building resilience to a broad range of threats, including health emergencies, and the inclusion of urban recovery in national COVID-19 recovery strategies
- 71. In doing so, the subprogramme will assist Member States to make progress towards achieving Sustainable Development Goals 1, 5, 8, 9,10,11,13 and 16.
- 72. The above-mentioned work is expected to result in:
- (a) An increased proportion of the population in crisis-affected communities engaging in local decision-making with regard to reconstruction projects and improved social inclusion, strengthened land tenure, and improved access to adequate housing and basic services;
- (b) An increased number of cities where refugees, migrants, internally displaced persons, returnees and host communities have access to secure tenure, sustainable basic services and social services, adequate housing, safety and security;
- (c) The reduction of multidimensional risks and increased protection for those in vulnerable situations in cities.

(d) Strengthened systems for analysis and decision-making concerning resilient infrastructure at the city level, particularly in crisis settings.

D. Programme performance in 2021

Improved access to sustainable and resilient housing for internally displaced women and girls in Northern Mozambique

- 73. The subprogramme provided inclusive, sustainable housing solutions to displaced women and girls affected by the conflict-driven humanitarian crisis in the region, in collaboration with the government (ADIN-Agency for the Integrated Development of the North, Province of Cabo Delgado, Ministry of Gender Youth and Social Action, Local Authorities).
- 74. In the village of Marocani, Mozambique, the subprogramme, in partnership with UN-Women, initiated a one-year recovery pilot project, which targeted 50 women-headed families. A community driven model of human settlement planning and management was used as part of a resilience and social integration programme, assisting in housing reconstruction through training, supervision and provision of materials. This access to adequate shelter and employment supported women in overcoming some of the additional vulnerabilities caused by the COVID-19 pandemic. To help further mitigate the effects of the pandemic, the subprogramme supported municipal authorities across Mozambique, including in Cabo Delgado, to increase access to basic services. Progress towards this objective is presented in the performance measure below (see figure 11).

Figure 11
Performance measure: Number of women-headed families with access to sustainable and resilient housing
Performance measure

2019 (actual)	2020 (actual)	2021 (actual)
N/A	N/A	50 women-headed families assisted in resilient housing reconstruction, providing new skills, shelter and employment.

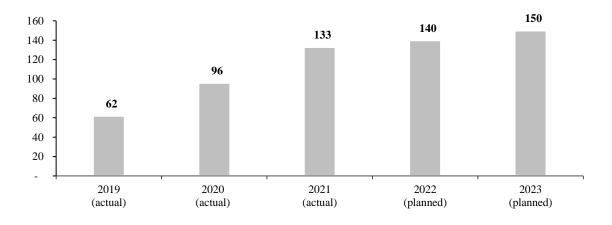

E. Planned results for 2023

1. Result 1: inclusive cities: enhancing the positive impacts of urban migration¹

Programme performance in 2021

- 75. The subprogramme's work contributed to the 133 cities applying participatory planning technologies, which met the planned target.
- 76. Progress towards the objective and target for 2023 are presented in the performance measure below (see figure 12).

Figure 12 **Performance measure: number of cities applying participatory planning methodologies (cumulative)**

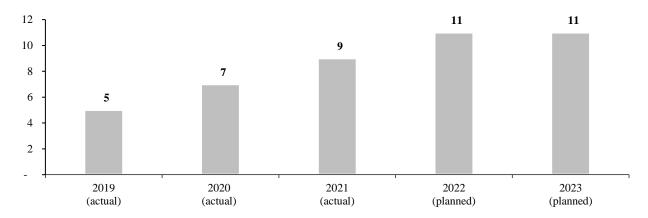

2. Result 2: a new approach to strengthen city resilience

Programme performance in 2021 and target for 2023

- 77. The subprogramme's work contributed to nine cities implementing the City Resilience Global Programme, which met the planned target.
- 78. Progress towards the objective and target for 2023 are presented in the performance measure below (see figure 13).

Figure 13

Performance measure: number of cities implementing the City Resilience Global Programme (cumulative)

3. Result 3: urban recovery and resilience through an area-based and conflict-sensitive approach

F. Proposed programme plan for 2023

79. UN-Habitat's Urban Recovery Framework (URF), developed by the subprogramme, primarily targets neighbourhoods hosting groups in vulnerable situations and has three main outcomes: the development of urban, area-based recovery and neighbourhood including better physical access to public space areas; the restoration of basic and social services especially water, sanitation and solid waste management; and improved and sustained community resilience and social cohesion. The URF was applied in the heavily damaged cities of Dara'a and Deir Ezzour in Syria as part of a joint programme on Urban and Rural Resilience implemented by six UN agencies (FAO, UNDP, UNFPA, UN-Habitat, UNICEF, WFP). Direct beneficiaries of the interventions include over 55,000 returnees, some 10,000 Palestinian refugees in the UNRWA camp, plus around 39,000 internally displaced persons.

Lessons learned and planned change

80. The lesson for the subprogramme was the need to ensure participatory processes, which are backed by community buy-in, thus ensuring social cohesion amongst the different groups and their understanding of need for flexibility in programming. In applying the lesson, the subprogramme will ensure continued implementation and if course necessary adjustment in fluid security context with the participation of different communities. Expected progress towards the objective is presented in the performance measure below (see figure 7).

Table 7 **Performance measure**

2019 (actual)	2020 (actual)	2021 (actual)	2022 (planned)	2023 (planned)
	Establishment of joint programming mechanisms between 6 UN agencies.	Neighbourhood action plans developed on basis of joint- participatory area-based planning for 2 cities and 9 neighbourhoods.	Physical access to 4 neighbourhoods rehabilitated and further improved basic services in the 2 cities.	9 neighbourhoods rehabilitated in 2 cities and residents provided with better basic services.

G. Deliverables

81. Table 8 lists all deliverables of the subprogramme.

Table 8
Subprogramme 4: deliverables for the period 2021–2023, by category and subcategory

Cat	tegory	and subcategory	2021 planned	2021 actual	2022 planned	2023 planned

	9.	On enhanced social integration and cohesive communities	3	3	2	2
	10.	On improved living standards and inclusion of migrants, refugees and internally displaced persons	3	3	2	2
	11.	On enhanced resilience of the built environment and infrastructure	3	3	2	2

B. Substantive deliverables

Consultation, advice, and advocacy: consultations with all Member States on resolutions of the General Assembly and the Economic and Social Council; briefings to all Member States on sustainable development issues and processes; Advisory services provided to Member States on urban crisis mitigation and response and on enhancing urban resilience to multi-hazard threats, including crises related to migration and displacement.

Databases and substantive digital materials: an indicator framework to monitor the implementation of the quadrennial comprehensive policy review used by all Member States; Development of new data platform on urban migration to be hosted by the Sub-programme as part of the Flagship on Migration programme implementation.

C. Communication deliverables

Outreach programmes, special events and information materials: at least 2 new substantive publications, global and regional information brochures, leaflets and online awareness raising materials on the UN-Habitat Flagship Programme on Migration focusing on social inclusion and response to migration and displacement, at the global and regional/country level with emphasis on partnerships and comprehensive responses through the application of various tools on HLP (Housing and Land Property) rights, spatial planning, housing, urban governance and HDP (Humanitarian Development Peace) nexus.

Digital platforms and multimedia content: content for social media accounts, blogs and website related to the social and economic inclusion of migrants, refugees, internally displaced persons and returnees in urban crisis contexts.

VI. Proposed post and non-post resources for 2023

A. Overall financial overview

- 82. The financial framework of UN-Habitat comprises three broad sources of funding namely (i) United Nations regular budget allocations, which are approved by the General Assembly; (ii) United Nations Habitat and Human Settlements Foundation contributions, from which non-earmarked² budget allocations are approved by the Executive Board, and earmarked³ budget allocations are approved by the Executive Director, and (iii) technical cooperation contributions, from which the budget allocations are also approved by the Executive Director. For management purposes, the Foundation non-earmarked account and the regular budget are the "core resources" of UN-Habitat.
- 83. Regular budget appropriations are approved by the General Assembly and fall into two main categories: Section 15 (human settlements) and Section 23 (regular programme of technical cooperation). The regular programme of technical cooperation is for sectoral advisory services in the field of human settlements and sustainable urban development. Other regular budget resources allocated to UN-Habitat through other agencies include Section 2 (department of conference services) which are allocations in support of UN-Habitat mandated components of conferences; and Section 35, development account related to specified development projects.
- 84. Programme support revenue is earned from the implementation of the earmarked funds which is a percentage of total expenditures on direct programme costs in line with administrative instructions ST/AI/286.
- 85. Contributions to the United Nations Habitat and Human Settlements Foundation are of two kinds: non-earmarked and earmarked. Non-earmarked foundation contributions are voluntary contribution allocations from Governments which are approved by the Executive Board in accordance with agreed priorities to support the implementation of the approved UN-Habitat programme of work. Earmarked foundation contributions are voluntary contributions from Governments and other donors for the implementation of specific activities that are included in the programme of work. These contributions generally cover global, thematic and multi-country projects and include trust funds.
- 86. Technical cooperation contributions are earmarked voluntary resources from Governments and other non-government donors for the implementation of specific technical country-level activities consistent with the mandate of UN-Habitat and its programme of work and Strategic Plan.
- 87. The consolidated work programme and budget for the year 2023 has been prepared following an analysis of the targeted income from the three sources of funding for the year based on the resource requirements for the implementation of the proposed annual programme of work. In line with General Assembly resolution 67/226, all efforts have been made to consolidate projected core and non-core resources within an integrated budgetary framework, on the basis of the priorities of the new strategic plan for the period 2020–2023.

1. Resource plan

88. UN-Habitat foresees to continue making progress in its earmarked funding comprising foundation earmarked and technical cooperation funds. The organisation's business model also relies on the support of its core budget made up of the regular budget allocations and foundation non-earmarked accounts. In this area, over a period of many years, contributions from Member States to the Foundation non-earmarked fund have fallen far short of the budget approved by member States. In the biennium 2012–2013, member states approved \$70.2 million but contribute cash amounting to only \$22.7 million (32 per cent). Following the experiences of 2012–2013, the UN-Habitat approved budget was adjusted downwards to \$45.6 million in 2014–2015 and 2016–2017. The budget was further reduced to \$26.0 million in the 2018-2019 biennium. The total amount received was only \$10.1 million (22 per cent) in 2014–2015, and \$5.0 million in the 2016–2017 biennium (11 per cent). The actual receipts for non-earmarked contributions through the Foundation general purpose fund in 2018–2019 amounted to \$8.7 million (33.3 per cent). The total budget for the year 2020 amounted to \$18.9 million of which a total of \$4.4 million was received. The approved level of budget for 2021 and 2022 amounted to \$10 million and \$12 million respectively with \$3.0 million received in 2021 in voluntary contributions.

² These are also known as general purpose allocations.

³ Also known as special purpose allocations.

- 89. The overall resource requirements for UN-Habitat for the year 2023 are projected at \$162.9 million, reflecting a decrease of 36.2 per cent over the final \$255.4 million approved for the year 2022. This projection represents a reflection of the real delivery levels based on the 2021 level as the impact of covid-19 on programme performance continues to be monitored. Also factored in is the effect of reduction of foundation non-earmarked contributions to \$3 million as received in 2021.
- 90. Tables 1 to 20 show financial and human resource requirements for the year 2023 which is the fourth and final year of the initial four years of the strategic plan 2020-2023, for which a decision was taken to extend by two more years.

91. The resource estimates for the programme of work of the organization for the year 2023 are organized according to the four strategic areas aligned to the domains of change of the 2020–2023 strategic plan. Resources are categorized by source of funding and category of expenditure. The allocation of resources across the four subprogrammes is based on an analysis of resource requirements for each strategic area based on the deliverables for each subprogramme for the budget year and the strategic priorities of UN-Habitat.

- 92. UN-Habitat will continue to focus on working with Member States to achieve more predictable multi-year funding for the normative work of the organization, by expanding the donor base, and mobilizing support from new initiatives to be carried out in support of the implementation the Sustainable Development Goals and the New Urban Agenda. The programme will continue to work with member states to expand the number of countries contributing to core resources for its programme of work.
- 93. Table 5 shows a comparison of expenditure for the years 2021, 2022 and projections for 2023. Table 6 shows expenditure by category for each funding source and table 17 shows the breakdown of expenditure by subcategory for each strategic area.

2. Foundation non-earmarked budget

94. The proposed budget for the United Nations Habitat and Human Settlements Foundation to be funded from non-earmarked contributions for the year 2023 is \$3.0 million. This budget level has been aligned to the realistic voluntary contribution levels received from the Member States in recent years.

Regular budget

95. The amount of regular budget allocations for 2023 is projected at \$14.1 million (before recosting), which represents an increase of about 6.3 per cent, mainly due to an adjustment of the non-recurrent budget for report for the homeless and a conversion of seven positions from the foundation. Support to policy making bodies accounts for \$0.8 million (5.5 per cent). Programme activities account for \$10.0 million (70.8 per cent), while \$1.4 million (10.2 per cent) is for programme support services and \$1.9 million (13.5 per cent) for executive direction and management. Since the United Nations regular budget is subject to the approval of the General Assembly, the amounts quoted for 2023 are only indicative. Accordingly, any cost adjustments to this part of the resource plan will be affected at the United Nations Headquarters at the time of the adoption of the budget by the General Assembly.

3. Foundation earmarked budget

- 96. The estimated budget for the year 2023 is \$39.1 million, most of which is for programme activities (see table 1). This represents a projected decrease of 43.5% per cent from the \$69.1 million approved for the year 2022.
- 97. As reflected in table 8, the United Nations Habitat and Human Settlements Foundation earmarked component incorporates the corresponding programme support cost (overhead) element of \$3.8 million estimated at an average of 10.8% of the total cost of foundation earmarked programme costs. This amount represents the contribution of the foundation earmarked portfolio to the programme support cost revenue account for 2023. The details of how the programme support cost revenue earned will be utilised is presented under the programme support cost budget section.
- 98. Projected revenue from contribution agreements for the foundation earmarked projects in 2023 amounts to \$5.3 million as presented in table 8.

 $\begin{tabular}{ll} Table~8\\ \hline \textbf{Foundation earmarked resources composition} \\ \end{tabular}$

Total	41 094.8	69 122.0	(30 045.4)	(72.3)	39 076.6

4. Technical cooperation budget

- 99. The proposed budget for technical cooperation activities is projected at \$96.7 million for the year 2023, representing a decrease of 35.5 per cent on the estimated budget for the year 2022.
- 100. As reflected in table 9, the technical cooperation component includes the corresponding programme support cost (overhead) element of \$6.5 million estimated at an average of 7.2% of the total of technical cooperation programme costs. This amount represents the contribution of the technical cooperation portfolio to the programme support cost revenue account for 2023. The details of how the programme support cost revenue earned will be utilised is presented under the programme support cost budget section.
- 101. Projected revenue from contribution agreements for the technical cooperation earmarked projects in 2023 amount to \$186.7 million as presented in table B.9

Table 9

5. Programme support activities budget

102. UN-Habitat projects that a total of \$10.0 million will be expended to support the 2023 programme implementation. Table 4 shows the distribution of the strategic areas that will be supported. Estimated revenue to be earned from earmarked projects in 2023 amounts to \$10.3 million of which \$6.5 million is expected from technical cooperation and \$3.8 million is expected from foundation earmarked funds.

B. Overall human resources overview

- 103. The new organizational structure of UN-Habitat was designed to be flexible and aligns the posts of the organization with the four strategic areas and objectives of the strategic orientation. The human resources requirements are in line with the 2020-2023 strategic plan.
- 104. The annual work programme provides for 2023 a total of 157 posts comprising 82 posts from regular budget, 14 posts from foundation unearmarked and 61 posts from programme support fund.
- 105. Under the organizational structure, the External Relations, Strategy, Knowledge and Innovation Division and the Global Solutions Division work closely with the Regional Programmes

Division to support the implementation of the New Urban Agenda at the regional and country level. The Management, Advisory and Compliance Service provides support to all UN-Habitat operations.

106. Table 10 shows the staffing levels for the year 2022 compared to the 2021 levels. Table 21 shows resource requirements by strategic area.

1. General financial reserve

- 110. In accordance with ST/SGB/2015/4 financial rule 304.2 (b), upon the recommendation of the Executive Director, the Executive Board determines the level of the general financial reserve from time to time. This is to ensure liquidity of the Foundation non-earmarked fund, compensate for uneven cash flows and meet other requirements for the prudent management of the fund.
- 111. In view of the expected level of expenditure in the year 2023, a general financial reserve of \$0.6 million is recommended, which is equivalent to 20 per cent of the Foundation non-earmarked budget of \$3.0 million as presented in table 12. The recommended amount is based on the historical timing of Foundation unearmarked fund payments. This financial reserve will be recorded upon approval by the Executive Board of the 2023 programme of work and budget proposal in the financial statement of 2022.

2. Subprogramme 1: reduced spatial inequality and poverty in communities across the urban rural continuum

Annex I

Summary of follow-up action taken to implement relevant recommendations of the Advisory Committee on Administrative and Budgetary Questions (ACABQ)

Brief description of the recommendation

Action taken to implement the recommendation

In paragraph 6 of the ACABQ report, the Committee was informed that one evaluation, UN-Habitat Management and Administration, was proposed by the Joint Inspection Unit to start in 2019 and end in 2020. Following a request by the management of UN-Habitat, the evaluation was rescheduled for 2020-2021 to allow an assessment of the change processes initiated since the UN-Habitat reforms in 2018.

Status: In progress

The Joint Inspections Unit commenced the evaluation in the first quarter of 2021. The findings will be presented to the Executive Board in the first quarter of 2022.

Annex II

Summary of follow-up action taken to implement relevant recommendations of the Board of Auditors

A/76/307/Add.1 "Implementation of the recommendations of the Board of Auditors contained in its reports for the year ended 31 December 2020 on the United Nations funds and programmes - Report of the Secretary-General"

Brief description of the recommendation

Action taken to implement the recommendation

The Board recommends that UN-Habitat: (a) Identify the risks that might affect project implementation in advance of the execution phase to minimize the negative effects of delaying the intended benefits for the societies involved; and (b) plan and manage the recruitment process with respect to experts in the field office to ensure that there is timely and adequate staffing for improved project performance. 2015 A/71/5/Add.9, chap. II, para. 54

Status: Under implementation

"UN-Habitat has taken the following actions to mitigate risks to commence projects in a timely manner:

- 1. The Project Review Committee (PRC) established in 2020 has updated Terms of Reference to ensure the linkage to the four new UN-Habitat sub-programmes, and the expected contribution of the project to each subprogramme;
- 2. Revised the cash management methodology to ensure project funds received are applied to the projects in a timely manner. The 2020 year-end unapplied deposits are under \$200,000;
- 3. Will conduct a rostering exercise for key project personnel in the first two quarters of 2021. The recommendation continues to be under implementation."

The Board recommends that UN-Habitat: (a) Conduct enterprise resource management awareness training to enable the country offices staff to acquire the skills and knowledge necessary for effective implementation of enterprise risk management; and (b) prepare the risk register in accordance with the UN-Habitat enterprise risk management guidelines and summarize all important risks and response strategies in order to mitigate risks in project implementation.

Status: Under implementation

UN-Habitat notes this recommendation is under implementation.

2016 A/72/5/Add.9, chap. II, para. 13

The Board recommends that UN-Habitat: (a) formulate strategies to minimize consultancy costs in accordance with its strategic objectives for the period 2014–2019; and (b) include minimization of consultancy costs in the results framework for tracking and reporting periodically.

2016 A/72/5/Add.9, chap. II, para. 23

The Board recommends that UN-Habitat strengthen monitoring of the implementation projects funded by conditional agreements in order to ensure that revenue is realized after fulfilling the conditions and to reduce the amount of liability in the financial statements. The Board recommends that UN-Habitat strengthen monitoring of the implementation projects funded by conditional agreements in order to ensure that revenue is realized after fulfilling the conditions and to reduce the amount of liability in the financial statements. 2016 A/72/5/Add.9, chap. II, para. 74

The Board recommends that UN-Habitat (a) ensure capacity-building programmes are conducted for all staff who have resource mobilization responsibilities at the country and regional levels; and (b) develop policy guidelines and circulate them to the regional and country offices as required under the results framework for the donor relations and income strategy.

2017 A/73/5/Add.9, chap. II, para. 15

Status: Under implementation

UN-Habitat considers consultancies to be an appropriate methodology to meet specific needs of projects and continues to evaluate longer-term on-going needs of projects to be addressed using temporary or fixed-term appointments. This recommendation remains under implementation.

Status: Under implementation

UN-Habitat has implemented a quarterly monitoring of project funded containing conditional liabilities. This recommendation is under implementation.

Status: Implemented

UN-Habitat is coordinating with the Regional Directors on the implementation of the Executive Board October 2020 approved Resource Mobilization Strategy. UN-Habitat considers this recommendation implemented and will provide BOA with supporting for verification and closure of the recommendation.

The Board recommends that UN-Habitat ensure that substantive and financial aspects of project documents are reviewed and approved by the Project Advisory Group prior to the signing of funding agreements, as required by the UN-Habitat project-based management policy.

2017 A/73/5/Add.9, chap. II, para. 19

The Board recommends that UN-Habitat ensure documentation is in place whenever there is movement of assets in order to reduce the risk of losing assets. 2017 A/73/5/Add.9, chap. II, para. 22

The Board recommends that UN-Habitat: (a) ensure that funds are released to implementing partners on time so that the planned activities can be completed within the scheduled period; and (b) establish a risk-based fast-track payment process for emergency and high-priority countries, as proposed by the country office in the Syrian Arab Republic.

2017 A/73/5/Add.9, chap. II, para. 32

The Board recommends that UN-Habitat ensure that the country offices in Colombia and Brazil: (a) find safer outside locations to store their backups, which can be accessed by staff during disasters; and (b) develop disaster recovery and business continuity plans.

2017 A/73/5/Add.9, chap. II, para. 44

The Board recommends that UN-Habitat establish management structures and administrative policies and procedures for the new hub arrangement that provide guidance on the day-to-day management of hub operations in the Regional Office for Latin America and the Caribbean.

2017 A/73/5/Add.9, chap. II, para. 51

The Board recommends that UN-Habitat comply with the administrative instruction on consultants and individual contractors (ST/AI/2013/4) by utilizing the roster in the selection of consultants and individual contractors to ensure that competent and experienced consultants and individual contractors are selected. 2017 A/73/5/Add.9, chap. II, para. 55

The Board recommends that UN-Habitat: (a) adhere to the results-based management policy on reporting by incorporating analyses of the logical frameworks into their progress reports; and (b) prepare annual workplans for their activities in line with the approved programme of work for the biennium.

2017 A/73/5/Add.9, chap. II, para. 59

The Board recommends that UN-Habitat conduct a complete analysis of the registers associated with the grants, specifically for the cases observed by the Board. As part of the analysis, UN-Habitat should identify the

Action taken to implement the recommendation

Status: Implemented

The established the Programme / Project Review Committee (PRC), with the Deputy Executive Director as Chair, replaced the Project Advisory Group (PAG) in 2020. All projects presented to the PRC in 2020 and the associated minutes recorded. UN-Habitat has implemented a control mechanism to ensure this prior practice is not continued. This will be submitted to BOA for verification and closure of the recommendation.

Status: Implemented

UN-Habitat considers this recommendation implemented and will submit supporting documentation to BOA for verification and closure.

Status: Implemented

Per the improvements noted above in the application of cash to the Contribution Agreements, the ability to enact the payments terms and conditions stipulated in Agreements of Cooperation (AoC) has been improved. UN-Habitat has been able in 2020 to fast track COVID-19 and other humanitarian emergency response cases. UN-Habitat will present the supporting documentation to BOA for verification and closure of the recommendation.

Status: Implemented

UN-Habitat has moved all critical data to the cloud, during the first quarter 2020, as part of the UN organizational strategy, with the support of UNON ICT. This provided to be a key factor in allowing operations to continue during the COVID-19 pandemic. UN-Habitat considers this recommendation implemented and will provide supporting documentation to BOA for verification and closure of the recommendation

Status: Under Implementation

UN-Habitat considers this recommendation to be under implementation.

Status: Implemented

UN-Habitat through additional advisory services provided by MACS Human Resources continue to work with all Directors on appropriate use of personnel using UN Secretariat contracts, and service personnel through both UNDP and UNOPS. UN-Habitat considers this recommendation implemented and will provide BOA with supporting documentation for verification and closure of the recommendation.

Status: Under Implementation

"UN-Habitat provided its Executive Board with report UN-Habitat Strategic Plan for the period 2020 -2023: the draft results framework

(HSP/EB.2020/9/Rev.1.) at its Second Session 27-29 October 2020 and will provide this report on annual basis. The PRC ensures all project proposals incorporate the UN logical framework. UN-Habitat considers this is under implementation and will be completed in 2021."

Status: Under Implementation

UN-Habitat continued to complete the financial closure of all operationally closed grants during 2020, which included a review and write-down of uncollectable

current status of the amounts delivered to implementing partners and received from conditional agreements, conduct a compliance review of the signed agreements and, if applicable, request reimbursement of the resources provided under them and correct the accounting transactions records.

2018 A/74/5/Add.9, chap. II, para. 21

The Board recommends that UN-Habitat evaluate the application of impairment provisions to advances accounts.

2018 A/74/5/Add.9, chap. II, para. 22

The Board recommends that UN-Habitat establish a framework and methodology for full cost recovery in accordance with General Assembly resolution 67/226 applicable in all units of the entity and inform its hubs and offices of its application.

2018 A/74/5/Add.9, chap. II, para. 42

The Board recommends that UN-Habitat include detailed documentation of each project in the project accrual and accountability system in order to support their execution and corresponding progress.

The Board recommends that UN-Habitat improve the controls related to updated information, established in paragraph 36 of the project-based management policy. 2018 A/74/5/Add.9, chap. II, para. 54

The Board recommends that UN-Habitat incorporate in the project accrual and accountability system the midterm and/or end-of-project evaluations for all its projects.

2018 A/74/5/Add.9, chap. II, para. 62

The Board recommends that UN-Habitat improve the controls related to the evaluation reports, established in paragraph 19 of the project-based management policy.

The Board recommends that UN-Habitat update its internal manuals, such as the project-based management policy and the project accrual and

Action taken to implement the recommendation

receivables. The review of all Agreements of Cooperation Implementing Partner Grants commenced in 2020 and will be completed by 30 June 2021. The recommendation is under implementation.

Status: Under Implementation

UN-Habitat is the process of completing a full review of Implementing Partner Agreements of Cooperation and will enact all applicable write-offs. This is scheduled to be completed by 30 June 2021. This recommendation remains under implementation.

Status: Under Implementation

UN-Habitat takes not of the referenced GA resolution that requests UN Organizations ensure that Regular Budget or

UN-Habitat Foundation non-earmarked resources do not subsidized activities of earmarked trust fund projects. In 2020 UN-Habitat ensured all Common Service Costs for earmarked projects are charged to the respective project as a direct cost. This recommendation has been partially implemented. UN-Habitat will in 2021 evaluate options to fund the Field Architecture Regional and Multi-Country Offices through cost allocations that would be reflected in future Contribution Agreements. This recommendation continues under implementation.

Status: Under Implementation

UN-Habitat has commenced the implementation of Umoja Extension 2 IPMR will be completed in the second quarter 2021. This recommendation is considered to be under implementation.

Status: Under Implementation

UN-Habitat has commenced the implementation of Umoja Extension 2 IPMR will be completed in the second quarter 2021. This recommendation is considered to be under implementation.

Status: Under Implementation

This recommendation has been over-taken by planned Umoja Extension 2 IPMR module, which requires a review of the complementary functionality required in PAAS to monitor evaluation activities. This recommendation remains under implementation pending the full implementation of Umoja IPMR.

Status: Implemented

"UN-Habitat has provided its Executive Board with the following reports on evaluation at its Second Session 27-29 October 2021:

Executive Director report on the final evaluation of the implementation of the strategic plan of UN-Habitat for the period 2014–2019 (HSP/EB.2020/23/Add.1.) Evaluation of the strategic plan for the period 2014–

Evaluation of the strategic plan for the period 20 2019 (HSP/EB.2020/INF/6)

The PRC ensures all submitted projects, include funding for external evaluation, in accordance with UN-Habitat project evaluation policy.

UN-Habitat will provide supporting documentation to the BOA for verification and closure of the recommendation.

Status: Under Implementation

UN-Habitat is scheduled to implement the Umoja Extension 2 IPMR module in the 2nd quarter 2021.

accountability system guidelines and manual, to clearly establish Umoja and its extensions as the system that gives support to the different duties performed by the entity.

2018 A/74/5/Add.9, chap. II, para. 67

The Board recommends that UN-Habitat conduct a review of the expenses relating to projects that are led or supported by consultants.

2018 A/74/5/Add.9, chap. II, para. 77

The Board recommends that, as part of the review, UN-Habitat should request reclassification of the travel expenses and correct the accounting transactions records.

2018 A/74/5/Add.9, chap. II, para. 78

The Board recommends that UN-Habitat strengthen measures to identify and reclassify expenses and clearly set out the scope and frequency of controls.

2018 A/74/5/Add.9, chap. II, para. 79

The Board recommends that the Regional Office for Latin America and the Caribbean align the preparation of the quarterly travel plans for the Mexico City hub with the provisions established in the project cycle procedures manual of 2017 to ensure appropriate authorization of travel.

2018 A/74/5/Add.9, chap. II, para. 87

The Board recommends that UN-Habitat prepare a comprehensive annual acquisition plan for the forthcoming periods, in as timely a manner and as accurately as possible, in accordance with both the Financial Regulations and Rules of the United Nations and the United Nations Procurement Manual, taking into consideration its regional offices, country offices and hubs.

2018 A/74/5/Add.9, chap. II, para. 95

The Board recommends that each administrative level of UN-Habitat develop a comprehensive risk catalogue in accordance with the enterprise risk management implementation guidelines put in place by the organization.

2018 A/74/5/Add.9, chap. II, para. 107

The Board recommends that UN-Habitat facilitate and validate the risk documentation made by each of its regional offices, thus offering a more comprehensive view of the difficulties and risk factors that affect the regions and ways to reduce local risks.

2018 A/74/5/Add.9, chap. II, para. 108

The Board recommends that, for the office of the Rio de Janeiro hub, UN-Habitat make the efforts necessary to conclude a lease agreement signed by both parties, in accordance with the required conditions.

2018 A/74/5/Add.9, chap. II, para. 115

Action taken to implement the recommendation

This recommendation is considered to be under implementation.

Status: Implemented

UN-Habitat Programme Management Officers review and certify all expenditures related to projects to ensure financial oversight in accordance with United Nations Financial Regulations and Rules. UN-Habitat will provide supporting documentation to the BOA for verification and closure of the recommendation.

Status: Implemented

UN-Habitat has worked with UNON BFMS to issue a Standard Operating Procedure to ensure the correct Umoja recording of travel expenses for consultants. UN-Habitat considers this implemented and will submit supporting documentation for verification and closure of the recommendations.

Status: Implemented

Per the previous recommendation, with the implementation of the SOP on consultant travel, there should not be a requirement for adjustment entries going forward. UN-Habitat will continue to monitor any adjustment requests to reinforce the SOP. UN-Habitat considers this implemented and will submit supporting documentation for verification and closure of the recommendations.

Status: Under Implementation

This recommendation was over-taken in 2020 by the COVID-19 pandemic, which continues into 2021. The travel of personnel continues to be very restrictive. It should be noted the implementation of Umoja Extension 2 IPMR module will facilitate the monitoring of upcoming workshops for planned travel. This recommendation is considered under implementation based on the stated events.

Status: Implemented

UN-Habitat has completed the submission of the 2021 annual demand plan in 2021. This will be an annual process on-going forward. UN-Habitat considers this implemented and will provide BOA supporting documentation for verification and closure of the recommendation.

Status: Under Implementation

UN-Habitat considers this recommendation to be under implementation.

Status: Under Implementation

UN-Habitat has noted the implementation of the Field Architecture is on-going. This recommendation continues to be under implementation.

Status: Under Implementation

UN-Habitat considers this recommendation to be under implementation.

The Board recommends that UN-Habitat review the disbursements related to lease payments previously made to the Instituto Pereira Passos of the municipality of Rio de Janeiro and clarify the legal basis for the payments.

2018 A/74/5/Add.9, chap. II, para. 116

The Board recommends that UN-Habitat improve the monitoring of staff annual leave to ensure that all leave is requested and approved by supervisors before being taken.

2018 A/74/5/Add.9, chap. II, para. 127

The Board recommends that UN-Habitat perform periodic and timely reviews of the leave system to identify absences and, if relevant, apply charges on the monthly salary of the staff.

2018 A/74/5/Add.9, chap. II, para. 128

The Board recommends that UN-Habitat management devise a suitable mechanism to ensure better coordination between the entity and OIOS for the complete and comprehensive reporting of cases of fraud and presumptive fraud.

2018 A/74/5/Add.9, chap. II, para. 132

Establish sufficient controls for legally enforceable agreements in order to have voluntary contributions correctly accounted during the same year in which they become binding;

2019 A/75/5/Add.9, paragraph 19

The Board recommends that the Sri Lanka and Afghanistan country offices, together with the Regional Office for Asia and the Pacific, comply with the implementing partners' policy by extending the agreements of cooperation and their amendments prior to their expiration date, thereby avoiding uncovered periods in the agreement.

2019 A/75/5/Add.9, paragraph 55

The Board recommends that the Cambodia and Laos People's Democratic Republic country offices, together with the Regional Office for Asia and the Pacific, ensure that funds are released and instalments are paid on time to implementing partners in accordance with the agreements.

2019 A/75/5/Add.9, paragraph 56

The Board recommends that the Afghanistan, Laos People's Democratic Republic and the Philippines country offices, together with the Regional Office for Asia and the Pacific, ensure that the deadlines for the achievement of deliverables are met, along with the timely scheduled payment of instalments, in order to improve the implementation of projects with implementing partners, as planned.

2019 A/75/5/Add.9, paragraph 57

The Board recommends that the Sri Lanka country office and the Regional Office for Asia and the Pacific take measures to properly approve payments to the implementing partners in accordance with the agreement's mandatory requirements, which should be received prior to or at the time of the payment requests. 2019 A/75/5/Add.9, paragraph 58

Action taken to implement the recommendation

Status: Under Implementation

Supportive documentation in this regard was not provided. Taking into account the report of the Secretary-General, from which it is possible to understand that the implementation of the recommendation is in process, this recommendation is considered to be under implementation.

Status: Under Implementation

UN-Habitat notes this recommendation remains under implementation.

Status: Under Implementation

UN-Habitat considers this recommendation to be under implementation.

Status: Implemented

UN-Habitat has worked diligently with OIOS in 2020 in all aspects of the audits conducted by them. UN-Habitat considers this implemented and will provide supporting documentation to the BOA for verification and closure of the recommendation.

Status: Implemented

UN-Habitat has put in-place a series of control checks to ensure IPSAS revenue recognition compliance. UN-Habitat considers this implemented and will provide the BOA supporting documentation for verification and closure of the recommendation.

Status: Under Implementation

UN-Habitat notes with concern that we have not been able to effectively address BOA recommendations due to our financial constraints and prioritization in meeting operational imperatives during the COVID-19 pandemic. UN-Habitat Executive Director has made this a 2021 priority. The recommendation is under implementation.

Status: Under Implementation

The Board recommends that UN-Habitat review the quantity of overtime per month, with an emphasis on those that exceed the allowed limit of 40 hours and require the exceptional approval every time that this ceiling is exceeded. 2019 A/75/5/Add.9, paragraph 153

Status: Under Implementation

The Board recommends that the Regional Office for Asia and the Pacific make efforts to conduct the annual leave requests and approvals in a timely manner through Umoja, so that annual leave is approved before being used. 2019 A/75/5/Add.9, paragraph 164

The Board recommends that the Regional Office for Asia and the Pacific, improve the monitoring process in Umoja, performing periodic and timely reviews of the annual leaves of staff members, in order to avoid having annual leave being requested and approved after being used. 2019 A/75/5/Add.9, paragraph 165

The Board recommends that UN-Habitat determine the delegations of authority of staff members through the delegation of authority online portal, pursuant to Secretary General's bulletin ST/SGB/2019/2, resolving any discordance detected with the assigned Umoja roles. 2019 A/75/5/Add.9, paragraph 175

The Board recommends that UN-Habitat adjust the roles with conflict consistently with the Security Liaison Officer workbook and the Umoja roles guide, to comply with a correct segregation of duties. 2019 A/75/5/Add.9, paragraph 183

The Board recommends that UN-Habitat perform periodic reviews of Umoja roles established in the access control for the United Nations Secretariat systems ICT technical procedure, as applicable. 2019 A/75/5/Add.9, paragraph 184

The Board recommends that UN-Habitat update the information contained in the Umoja report on equipment in accordance with the SC119 Umoja property management overview course, assigning for each item the location and/or user responsible. 2019 A/75/5/Add.9, paragraph 195

The Board recommends that the assigned staff member responsible for the operational equipment be a staff member of UN-Habitat. 2019 A/75/5/Add.9, paragraph 196

The Board recommends that UN-Habitat headquarters take measures to monitor the proper registration of the capitalization and disposal of property, plant and equipment items, from the time when the assets are received by the entity and according to the information indicated in the corresponding delivery note or when the disposal is approved. 2019 A/75/5/Add.9, paragraph 207

Action taken to implement the recommendation

Status: Under Implementation

UN-Habitat notes with concern that we have not been able to effectively address BOA recommendations due to our financial constraints and prioritization in meeting operational imperatives during the COVID-19 pandemic. UN-Habitat Executive Director has made this a 2021 priority. The recommendation is under implementation.

Action taken to implement the recommendation

The Board recommends that UN-Habitat consider the depreciation of its assets when they are available for use, pursuant to the delivery principle of the United Nations corporate guidance for IPSAS on the delivery principle and paragraph 71 of IPSAS 17. 2019 A/75/5/Add.9, paragraph 208

The Board recommends that UN-Habitat coordinate with Headquarters on the possibility of phasing out the standard cost methodology, aligning its accounting with IPSAS requirements for valuing property, plant and equipment assets. 2019 A/75/5/Add.9, paragraph 215

The Board recommends that UN-Habitat coordinate with Headquarters to carry out a regular review of the residual value of assets in general and its fully depreciated assets that remain in use, in particular appropriately assigned useful lives and residual values to the assets, as established under IPSAS 17. 2019 A/75/5/Add.9, paragraph 217

The Board recommends that the Sri Lanka country office and the Regional Office for Asia and the Pacific assess and determine the disposal of the three vehicles that are not planned to be assigned to immediate projects. In this assessment, the vehicle that has been fully depreciated should also be included. 2019 A/75/5/Add.9, paragraph 237

The Board recommends that the Sri Lanka country office and the Regional Office for Asia and the Pacific improve the measures taken to ensure that the vehicles awaiting use are in good condition. This means proper maintenance, which should include routine general check-ups of the vehicles, and adequate storage. 2019 A/75/5/Add.9, paragraph 238

The Board recommends that UN-Habitat strengthen the monitoring of the payment procedure, in order to avoid having pending payments owing to an absence of the prerequisite documentation. 2019 A/75/5/Add.9, paragraph 247

The Board recommends that the Philippines country office and the Regional Office for Asia and the Pacific formalize the use of the workspaces provided by FAO. 2019 A/75/5/Add.9, paragraph 258

The Board recommends that the Philippines country office and the Regional Office for Asia and the Pacific improve the monitoring process of the lease agreements, in partnership with UNDP, in order to enforces these agreements properly and in a timely manner, avoiding any inconsistencies with regard to the use of the facilities. 2019 A/75/5/Add.9, paragraph 267

Status: Under Implementation
